My complexion was sallow and sickly, and as I look back now I know I developed into a very unpopular and disagreeable person. In fact I had little prospect of keeping my position last year. Cabell Resolution is Adopted In a Whirl.

SOME AMENDMENTS MADE

Senate Refuses to Ask Advice of Corporation Commission-Few Sub-Jects Up in Either Branch of Legislature

fered a resolution, which was afterwards mission to pass upon and offer suggestions lating to the powers and duties of the opposed by Mr. McIlwaine.

When the resolution of Mr. Lupton was out of the way the Senate devoted itself to the consideration of the game law bill, and passed it after some discussion.

The bill, as passed, makes the season for hunting east of the Blue Ridge from November 1st to February 1st, and west of the Blue Ridge from November 1st to

vember last to February 1st, and west of the Blue Ridge from November 1st to January 1st.

The House devoted the entire day to a discussion of the resolutions relating to matters of adjournment and to the appointment of a commission to revise the work of the body. The resolution offered by Mr. Cabell was finally passed, with an amendment offered by Mr. Edwards, the not results of which were that the House agreed to adjourn on May 15th and reconvene on November 10th and name a commission of five members—three from the House and two from the Senate—to codify and review the work of the body. Mr. Cabell's original resolution carried an appropriation of \$5,000 to pay the expenses of the proposed commission, but the question being raised by several members, the patron and the chair decided that a special bill would have to be offered for this purpose. Both bodies adjourned until noon to

#### The Senate.

There were not very many visitors at the Capitol when the Benate met at 12 o'clock. Some had gone there expecting to see a replittion of the scenes of the day before, but they were disappointed. Mr. Lupton offered a resolution to refer to the Corporation Commission the act known as the "Corporation Bill" for such recommendation as the commissioners

known as the "Corporation Bill" for such recommendation as the commissioners should see fit to make.

The resolution was as follows: "Resolved, That the Committees on Ronds and Courts of Justice of the Senate be, and they are hereby, directed to refer House bill 102 to the Corporation Commission with the request that the commission report in writing upon the provisions of the proposed measure, making such recommendations thereon as may in their judgment best subserve the interests of the Commonwealth."

Mr. McIlwaine said this would be an unheard of thing in the legislative halls of Virginia. The Sonators would, he thought, like to have suggestions from the members of the commission, but the committees should not be discharged from the further consideration of the act, for this would be doing a thing that would be establishing a most dangerous precedent in that the work the legislators should do would be transferred to the Corporation Commission.

Mr. Claytor took practically the same view of the matter that was held by Mr. McIlwaine, but he would like to have the Senate liself ask the members of the commission appear before the committees and offer suggestions as to perfecting the bill.

and offer suggestions as to perfecting the

Mr. Lupton stated that there had, he had heard, come from high official sources criticism of this bill. He wanted to get for the use of the Senators in writing any recommendations the commissioners could make as to adding the legislators in perfecting the bill.

"I understand," said Mr. Lupton, "that

"Is it true that the commissioners have
refused to appear before the committee?"
asked Mr. Lupton of Mr. McItwaine,
"I have heard it so stated," answered
Chairman McItwaine, "but so far as I
know the commissioners have never been
invited to appear before the committees."
Mr. McItwaine went on to declare that
the resolution was astounding to him.

he. "I have accepted all reasonable amendments, I have sought all light that I could possibly get on this subject; I regard this thing proposed to be done as an outrage and I wish my position to be fully understood. Here it is proposed, before the committees have had time to act, for the Sonate to formally require the high and honorable men who compose the commission to come before the committees. The committees would welcome any suggestions from these gentlemen, but to force them by a resolution of the Senate to take 'I have accepted all from these gentlemen, but to force them by a resolution of the Senate to take this bill and pass upon it would be not only a reflection upon the commissioners, but would be showing a lack of confidence in your committee."

WELCOME SUGGESTIONS.

"The committees, said Mr. Mcliwaine,
"would welcome suggestions not only
from the Corporation Commission but
from anybody else that would serve to
aid in perfecting the bill. But to cocere the commissioners and to cast reflection upon the members of the committees would be an outrage."

Mr. Claytor, replying to Mr. Mcliwaine,
said that he saw nothing wrong in the
resolution; it was designed simply to get
the commission to give suggestions such
as might help the Legislature to do its
work, just as the Governor of the State
in his messages makes recommendations
to the General Assembly. But he would
not press the matter.

Mr. Lupton said that he would withdraw his resolution for the present, but
gave warning that if the commissioners
should again be requested to appear before the committees and should refuse to
do so, he would later on re-introduce
the resolution.

"Would you pass a resolution asking
the Governor to make suggestions to the
Legislature as to laws that should be
passed?" asked Mr. Gold.

Mr. Claytor offered a bill to smend the Code in regard to the liability of common carriers, and Mr. Mcliwaino presented one to require clerks of circuit courts of countries or corporation or hustings courts of cities to send to the Secretary of the Commonweilth certified lists of county, district and city officers and to provide a penalty for fallure to do so.
